Created in 2003 by Baird Holm LLP, and sponsored by the Omaha Chamber, the Best Places to Work in Omaha initiative provides a way to publicly recognize and celebrate local employers who foster an engaged work environment and culture dedicated to organizational success. The competition measures levels of employee engagement through an online survey. The survey is administered and feedback is provided by Quantum Workplace. "This initiative has become an invaluable tool for employers to measure employee engagement, and to develop new goals based on the results," said Kelli P. Lieurance, Partner at Baird Holm.

"The survey provides the detailed information employers need to produce teams that are engaged and productive in their work. Earning this recognition is a great source of pride for the winners, and can also be used in both marketing and recruiting efforts," said Lieurance. "Furthermore, in light of the significant challenges faced in today's workplaces—including rising inflation, staffing shortages, supply chain instabilities, and shifting consumer behavior—the achievements of our winners this year are truly exceptional."

The winners, along with this year's featured non-profit, Girls, Inc. of Omaha will be publicly recognized at a luncheon event at the CHI Health Center Omaha on Thursday, April 3, 2025. Tickets are \$75 per person, or \$600 for a table of 10, and are available for purchase online at [www.bairdholm.com](http://www.bairdholm.com).

"These organizations are leading the way in fostering vibrant, engaged workplaces that inspire both productivity and innovation. Strong workplace cultures not only drive business success but strengthens our entire community. Every organization being recognized is setting a high standard for excellence in our region, and we are proud to celebrate their commitment to their teams and the growth of our local economy," said Heath Mello, President & CEO of the Greater Omaha Chamber.
